HON'BLE LG LAYS FOUNDATION STONE OF 'VAISHNAVI'

- LG lays foundation of Vaishnavi - New DDA Park and Nursery in North Delhi at Ashok Vihar
- The park was designed under the guidance of Lt Governor, Delhi
- The project consolidates seven fragmented green pockets to develop one large park.
- Facility of free-standing restaurant
- Inner locations reserved for imparting education on plants, including know-how of hydroponics and apiculture.

To further promote greenery and eco-friendly open public spaces in the National Capital - issues high on his agenda, the Lt. Governor, Shri V.K. Saxena, today laid the foundation stone of Vaishnavi, DDA Park and Nursery at Ashok Vihar in North Delhi. It is one of the first sites of DDA greens, that the Lieutenant Governor had visited after taking oath in May 2022 and had instructed for the hitherto fallow land strewn with garbage and C&D waste to be developed into a aesthetically pleasing public park and nursery. The same thereafter has been designed under his guidance.

The project consolidates seven fragmented green pockets at Ashok Vihar Phase II to develop one large park of approximately 33 acres that has been named "Vaishnavi - वैष्णवी" - a name given to the plant Tulsi, the most sacred of all plants, also another name of "Goddess Parvati" and also "she who belongs to Lord Vishnu". The Landscape scheme captures the space symbolism from Samkhya Philosophy.

Member of Parliament from the area Dr. Harsh Vardhan and Senior DDA officers and other dignitaries were present at the project launch.

The project proposes to develop an environmental asset in form of a public park. The park will act like an integrated centre where city dwellers and tourists will be provided with hands-on opportunity to interact with nature through connected activities of plant nursery, vermi-composting, apiculture and pottery, being exhibited at the park with a special emphasis on know-how of hydroponic farming.

The central area is designed as a public park with subtle introduction to mythological tree species in the main spaces and attraction of interactive sculptures and multipurpose ground. There will be a standing restaurant within this space that will be able to operate, after park timings. An independent approach will connect the restaurant area to the park.

The interactive zones in the adjacent area of the park will offer an exposure of variety of plant material. These are to be connected through a central water channel, which acts like a common spine with sculptures. Pottery activity is also offered here. A location has been dedicated to an organized commercial exchange of plant and plant-oriented merchandise in natural setting.

The inner locations are reserved for more activities meant for imparting education on plants, including the know-how of hydroponics and apiculture, to interested people. The park proposes to generate its own manure through vermi-composting. The requirement of water for irrigation will be met through an on-site STP on local drain. Certain neighborhood level parks are kept dedicated for the use of local residents. Since it is a time bound project, the activities have been phased out for ease of construction, and the boundary and STP will be taken up on priority.

DDA AND WWF INDIA ORGANIZES INTERACTIVE ACTIVITIES AT SANJAY VAN

As winter sets in, #DDA and @WWFINDIA is going to organize various interactive events at Sanjay Van, Delhi to raise awareness about Wildlife and Conservation through informative and fun sessions.
